

Our Brands:

We will not hesitate to recommend Alpha Celsius Ptd Ltd to anyone with cold room needs. We had a partnership of 6 years and were satisfied with the works completed (e.g. new equipment installation works, breakdown calls, condensation issues, etc.). The sales manager provides good after-sales service and is always attentive to customers' inquiries. The prices are honest and reasonable.

The technicians from Alpha Celsius are well-versed in cold room systems. Their high-level competencies have improved our working environment and cold room capabilities by ensuring the systems running stable with minimum breakdown. The team is always delivered the tasks assigned within the deadline.

Highly recommend Alpha Celsius Ptd Ltd to any organizations who want to improve their cold room systems.
